On November 9, the emperor at Kyoto will receive Mr. George Guthrie, American ambassador at Tokyo, and former mayor of Pittsburg and other foreign representatives Mr. Guthrie may be unable to reach Kyoto in time for this reception as he has been in the United States recently.

There is no crow, and no crowning the state as a whole, 23 days were clear, four partly cloudy and four cloudy. Only one month on the state record, which covers 29 years, has had more clear days.

The first killing frost of the season coursed in the extreme western.

There is no crown, and no crowning at the coronation November 10. The ceremony is conducted in a pavillon of plain white wood, in the center of which the emperor's canopy, (not throne), is set. No nails are used in this structure, nor paint nor orna-ments. The emperor reads an address to the princes, officials and foreign representatives. It will be the first time foreigners have attended the

ceremony.

Count Okuma will read an address to the emperor, then 2,000 Japanese notables will yell three "banzais" and the coronation will be concluded.

The days following will be observed various ceremonies, such as "the sacrifice of the fruits of the earth to the spirits of the departed." This begins at nightfall and concludes at dawn. at dawn.

MONTH OF BLUE SKIES

October a Period of Sunshine, Warmth

Following is a summary of the weather and crop conditions in Kansas for the month of October issued by the local section center of the weather

The first killing frost of the season occurred in the extreme western counties on the 5th and generally in the eastern half of the state on the 9th. There were quite a number of counties in the central-southern portion where there was no frost severe enough to be classed as killing.

Crop Conditions. Very little corn was damaged by the frost, which in the eastern counties was from one to two weeks earlier than usual, but in the western part of the state the sorghums were not matured and in most cases can be used

only for forage.

The last half of the month was favorable for sowing wheat, which was almost completed with the soil in fine condition. At the close from 25 to 50 per cent of the wheat in the western half was still unthrashed.

BRYAN FLAYS WILSON

"The president says we should be rie president says we should be prepared, not for aggression, but for defense. That is the ground upon which all preparation for war is made. What nation has ever prepared for war on the theory that it was prewar on the theory that it was pre-paring for aggression? It is only fair to assume that the European rulers who are involved in the present war thought that they were contributing toward the maintenance of peace when they were making elaborate preparations for defense. It is a false philosophy and, being false, it inevit-ably leads into difficulties

an individual does, not by carrying arms but by an upright, honorable course that invites confidence and insures good will. This nation has won its position in the world without resorting to the habit of toting a pistol or carrying a club. Why reverse our policy at this time? The president himself admits that there is no reason for a change. He says: The country is not threatened from any quarter. She stands in friendly rela-tions with all the world. Her re-sources and her self-respect and capacity to care for her own citizens and rights are well known. And to make the statement more emphatic, he adds: 'There is no fear among us.'

"Why This Departure?" Bryan Asks. "If we're not threatened by any na-tion, if our relations with all nations are friendly, if everybody knows that we're able to defend ourselves if nec-essary and if there is no fear among us, why is this time chosen to revolu-tionize our national theory and to exchange our policy for the policy Europe? "Menace to National Ideals."

"We are now spending more than \$250,000,000 a year on preparedness—ten times as much as we are spending on agriculture—and I feel sure that the taxpayers are not in favor of increasing this sum at this time when a change is not only unnecessary but a menace to our national ideals.

"There has not been a time in fifty years when there was less reason to add to the expenses of the army and navy, for we are not only without an enemy, but our preparedness is increasing relatively as other nations exhaust themselves. And there never was a time, and there never has been a time in our whole history, when our duty to the world more imperatively demanded self-restraint and the counsel of peace.

TODAY'S MARKET REPORT.

Chicago, Nov. 5 .- WHEAT-Reports that the crop movement from first hands in the Northwest showed a notable falling that the crop movement from first hands in the Northwest showed a notable falling off tended to rally the wheat market today after an early decline. Temporary weakness at the start was due largely to Liverpool assertions that arrangements for all winter exports from Russia has been effected by the completion of a railroad to a new port called Katerina. A feature of the market was the strength of the December option, which went to a premium over May. After opening 160 to 100 feet of the December option, which went to a premium over May. After opening 160 feet to 160 feet over with December and May both at \$1.05 to \$1.05%, prices eased off a trifle more, and then rose to well above yesterday's close.

Big export clearances brought about further gains, and so also did word that exporters were active at Winnipeg. Minneapolis sales of cash wheat to come here led afterward to a setback. The close was weak at \$60.50 to \$50 net decline, with December at \$1.0456.104% and May at \$1.05%.

CORN—Export business lifted corn. Prospects for unsettled weather counted also against the bears. Opening prices, which ranged from \$60 ft to \$60 up, were followed by a moderate general advance.

Wall St., New York, Nov. 5.—STOCKS—The market yielded to pressure before the end of the first hour, quotations then falling well under yesterday's final figures. Canadian Pacific lost 3 at 185%, and other international shares were heavy. United States Steel and Coppers comprised the bulk of the early business, the latter showing some resistance to the selling movement. Early gains of 2 to 3 points in specialities were largely lost. Mercantile Marine issues featured the bond list, the 1½ per cent bonds and certificates rising 7 and 9 points, to 92 and 94 respectively, on rumors of an agreement between the reorganization committees.

Metal shares led all other issues at the outset of today's trading Anaconda, Chino and Utah Coppers selling at record prices, albeit initial gains were only fractional. Anaconda's opening price was 80%, Chino's 54½ and Utah's 74½. United States Steel was unchanged but soon gained and other war shares were moderately higher. Rails were steady except Atchison, which lost 1% at 1095%. Pealings were broad and active, with a lower range for Americans in London. New York Stock Market.
